Application is made pursuant to §77-1-130, Historic Rights of Way. Applicant holds an existing easement (granted in 1984) for one segment of road, however, this segment was not accurately defined in the previous easement. The landowner's association actually uses all four segments of road within the section to achieve access to the private lands within the association. Therefore, the previous easement granted in 1984 will be terminated and a new easement issued to reflect use of all four road segments.
